**15th European Conference on
Software Maintenance and Reengineering**

March 1-4, 2011, Oldenburg, Germany

http://se.uni-oldenburg.de/csmr2011

Join the Industrial Forum at CSMR 2011

The Conference on Software Maintenance and Reengineering (CSMR) is the premier European conference on the theory and practice of maintenance, reengineering and evolution of software systems. CSMR promotes discussion and interaction among researchers and practitioners about the development of maintainable software-intensive systems, and the evolution, migration and reengineering of these systems.

In this year the industrial forum enables companies to present their technologies (tools, methodologies, services) as well as success stories in software maintenance and reengineering. The goal of this forum is to promote the work of the reengineering industry and to demonstrate its practical relevance to this field.

The following companies will present their technologies and success stories at CSMR 2011:

- **Tibor Bakota - FrontEndART Software Ltd.** - A story about refactoring a large PL/SQL banking system

- **Dr. Joost Visser - SIG - Software Improvement Group** - Software Engineering Research in a Commercial Setting

- **Dr. Frank Simon - SQS Group -** IT- Preservability: An underestimated quality attribute

Apart from the industrial forum, CSMR 2011 will host a variety of tutorials to facilitate the implementation of research results in practical applications and bridge the gap between theory and practice. Each half-day tutorial provides an in-depth presentation of its topic with a strong focus on the topic's practical relevance. The tutorials are presented by experts in their respective fields who demonstrate why and how your software will benefit from recent research results in software evolution.

We are looking forward to welcome you as participant of the 15th European Conference on Software Maintenance and Reengineering 2011, of the industrial forum or of the tutorials. All CSMR 2011 events will take place at Carl von Ossietzky University, Oldenburg.

Registration for CSMR 2011 and the industrial forum is open now.
