Treffen der Digitalisierungsvorreiter

Internationale Partner im Cora-Förderprogramm zu Gast im Amt Hüttener Berge

- E- services
- Inclusion of end users
- Ease of use
- Integrated systems

D. Smart users and communities

MakerSpace / FabLab

INDIVIDUAL WORK AREA 	INDEPENDENT OFFICE MODULE 	CO-WORKING MODULE 																		
INFORMAL MEETING AREA / LOUNGE 	SMALL MEETING ROOM 	TRAINING / PITCHING ROOM 	CONFERENCE HALL 	LABS / TECH DEVICES AREAS 	EQUIPMENT / MATERIAL STORAGE ROOM 															
KITCHEN 	INDOOR BREAK ROOM 	OUTDOOR BREAK ROOM 	GAME / SPORT ROOM 	WAITING ROOM 	REPROGRAPHICS AREA 	WASHROOM FACILITIES 	LOBBY AREA 													
MANAGER'S OFFICE 	ADMINISTRATION OFFICES 	RECEPTION 	ARCHIVE ROOM 	SERVER ROOM 																

basic space requirements
 optional space requirements

- Smart City physical platforms
- Training, coaching and advise

D. Smart users and communities

Thinking growth

Supporting growth in
North Sea Region economies

- Being flexible
- Avoiding exclusion
- Effective solutions

Some key messages

SMART / SMARTER?

Creating a smart city has neither a single outcome nor a linear destination. It is an ongoing process and cities can become smarter and smarter...

Integrated development

Technologies are there, the art is to effectively use the technologies and create innovation platform for an integrated development in cities...

Future proof technologies

Superfast connectivity is the basis for smart city solutions. Investment in future proof infrastructure is a key to success!

Skills and participation

- Citizens as users
- Authorities as service provider
- Enterprises as technology developers
